<sup>\*\*</sup> Returns of more than 1 year are annualised.

# **REVIEW**

For the year ended 31 December 2021, the Fund returned 2.9%, while the benchmark TOPIX Total Return Index returned 2.8%, in SGD terms.

The Japanese market had a strong start to the year, fueled by the prospect of a strong global economic recovery as major countries started their vaccination drive while the new Biden administration provided promise of further fiscal stimulus in the US. However, the rally was stalled by the rise in COVID-19 cases in Japan from April 2021 and the market suffered a further sell-off in mid-May 2021 due to an index weight reshuffle by a major index provider that saw Japan's weight decline in the global index. Thereafter, the market lacked direction with COVID-19 infection cases ebbing and spiking, but rallied sharply in early September 2021 when Prime Minister Suga unexpectedly announced he would not run in Liberal Democratic Party's (LDP) leadership race. However, the rally did not last despite Fumio Kishida becoming the new Prime Minister after leading the LDP to a strong win in the Lower House elections in end-October 2021.

On the external front, faster tapering of bond purchases by the US Federal Reserve, the slowing Chinese economy, an on-going global semiconductor shortage, rising raw materials and global logistic disruptions tempered market expectations. The new COVID-19 Omicron variant discovered in late-November 2021 also pushed back the re-opening plans of many countries.

For the period under review, there was positive contribution across multiple sectors like shipping, land transportation and technology hardware, with stock selection the main driver of positive contribution.

#### STRATEGY AND OUTLOOK

The current pace of US monetary tightening looks to be within a much more compressed time frame as compared to previous cycles of monetary tightening. This is partly due to the very low interest rates and much higher inflation at present compared to previous cycles. This leads to a difficult backdrop for the equities market. A strong global economy that can drive strong earnings growth is needed to fuel investors' appetite for equities.

At the moment, the global economy is relatively robust with the exception of China whose economy is slowing from a combination of tighter regulations and a real estate slowdown. But recent actions by the Chinese authorities appear to indicate a more accommodative attitude to reinvigorate growth. On the other hand, the latest COVID-19 Omicron variant is pushing back re-opening efforts by many countries with its high infectiousness despite lower severity. However, based on current data, it is likely that this infection cycle may peak earlier than for previous strains and re-openings can resume shortly.

In Japan, the Omicron variant was kept at bay in 2021 but has since spiked in early 2022. This led to Japan re-imposing social distancing measures and is likely to delay government plans to stimulate its economy through programs like the "Go To" travel campaigns. As such, Japan will likely need to rely on the export sector early in the year before the domestic economy recovers later on.

On the corporate front, recent earnings have been mixed due to supply chain constraints and raw material price hikes. However, we believe supply chain issues will gradually be resolved through the year and earnings will show reasonable strength.

We prefer globally-competitive companies that can ride on structural growth trends and companies that can grow through value-added products and services. We like structural growth themes like factory automation and digitalization as a "new normal" for people at work and social interaction has emerged post the pandemic, besides the structural trends of wage inflation and productivity needs. The trend towards sustainability has also taken on greater prominence, with increasing awareness towards the need to sustain the earth's resources and living environment, and leading to tighter regulations on carbon emissions. We believe companies that can embrace this trend and deliver solutions will have a strong future, for example, in the electric car domain.

As of 3 February 2022.

#### 3. GLOBAL EXPOSURE

The global exposure relating to derivative instruments is calculated using the commitment approach by converting the derivative positions into equivalent positions in the underlying assets embedded in those derivatives.

The global exposure of the Sub-Fund to financial derivative instruments or embedded financial derivative instruments will not exceed 100% of the net asset value of the Sub-Fund at any time.

#### 8. SOFT DOLLAR COMMISSION RECEIVED BY THE MANAGERS

The soft dollar commissions if applicable from various brokers for the financial year were utilised on research and advisory services, economic and political analyses, portfolio analyses, market analyses, data and quotation analyses and computer hardware and software used for and in support of the investment process of fund managers. Goods and services received were for the benefit of the scheme and there was no churning of trades. These brokers also execute trades for other funds managed by the managers. The trades are conducted on best available terms and in accordance with best practices.

#### 9. OTHER MATERIAL INFORMATION

There is no other material information that will adversely impact the valuation of the Sub-Fund.

## 10. SUPPLEMENTAL INFORMATION ON UNDERLYING SUB-FUNDS

Not applicable

#### REPORT OF THE TRUSTEE

For the financial year ended 31 December 2021

The Trustee is under a duty to take into custody and hold the assets of the sub-fund of LionGlobal Investment Funds II (the "Fund"), namely LionGlobal Japan Growth Fund (the "Sub-Fund") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Sub-Fund during the financial year covered by these financial statements, set out on pages 14 to 46, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

For and on behalf of the Trustee HSBC INSTITUTIONAL TRUST SERVICES (SINGAPORE) LIMITED

#### STATEMENT BY THE MANAGER

For the financial year ended 31 December 2021

In the opinion of Lion Global Investors Limited, the accompanying financial statements set out on pages 14 to 46, comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial position and portfolio holdings of the sub-fund of LionGlobal Investment Funds II (the "Fund"), namely LionGlobal Japan Growth Fund (the "Sub-Fund") as at 31 December 2021, and the financial performance and movements in unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Sub-Fund will be able to meet its financial obligations as and when they materialise.

For and on behalf of LION GLOBAL INVESTORS LIMITED

GERARD LEE HOW CHENG

28 March 2022

# INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF SUB-FUND OF LIONGLOBAL INVESTMENT FUNDS II

(Constituted under a Trust Deed in the Republic of Singapore)

#### **Our Opinion**

In our opinion, the accompanying financial statements of the sub-fund of LionGlobal Investment Funds II (the "Fund"), namely LionGlobal Japan Growth Fund (the "Sub-Fund") is properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants, so as to present fairly, in all material respects, the financial position and portfolio holdings of the Sub-Fund as at 31 December 2021, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

#### What we have audited

The financial statements of the Sub-Fund comprise:

- the Statement of Total Return for the financial year ended 31 December 2021;
- the Statement of Financial Position as at 31 December 2021;
- the Statement of Movement of Unitholders' Funds for the financial year ended 31 December 2021;
- the Statement of Portfolio as at 31 December 2021; and
- the notes to the financial statements, including a summary of significant accounting policies.

#### **Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Independence

We are independent of the Sub-Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

# INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF SUB-FUND OF LIONGLOBAL INVESTMENT FUNDS II

(Constituted under a Trust Deed in the Republic of Singapore)

#### Other Information

The Sub-Fund's Manager (the "Manager") is responsible for the other information. The other information comprises all sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Manager for the Financial Statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Sub-Fund or to cease the Sub-Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Sub-Fund's financial reporting process.

# Auditor's responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

# INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF SUB-FUND OF LIONGLOBAL INVESTMENT FUNDS II

(Constituted under a Trust Deed in the Republic of Singapore)

## Auditor's responsibilities for the Audit of the Financial Statements (continued)

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

#### 1. GENERAL

LionGlobal Investment Funds II (the "Fund") is a Singapore domiciled umbrella fund constituted by a deed of trust dated 9 November 1999 together with its supplemental deeds thereon (thereafter referred to as "Trust Deed") between Lion Global Investors Limited (the "Manager") and Citicorp Trustee (Singapore) Limited. The Trust Deed is governed by the laws of the Republic of Singapore.

With effect from 1 January 2021, Citicorp Trustee (Singapore) Limited retired as the trustee of the Fund and HSBC Institutional Trust Services (Singapore) Limited (the "Trustee") was appointed in place of Citicorp Trustee (Singapore) Limited, in accordance with a Supplemental Deed of Appointment and Retirement of Trustee dated 4 November 2020.

The Fund comprises the following sub-funds:

- (i) LionGlobal Japan Growth Fund
- (ii) LionGlobal RMB Equity Fund

These financial statements relate to LionGlobal Japan Growth Fund (the "Sub-Fund") only. The Sub-Fund aims for the long-term capital growth of assets by investing primarily in quoted or listed securities in any Recognised Stock Exchange or Over-the-counter ("OTC") Market in Japan and this is a unit trust under the Central Provident Fund Investment Scheme.

The Sub-Fund offers five classes of units, namely SGD Class, SGD-Hedged Class, USD Class, USD-Hedged Class and JPY Class. Subscriptions and redemptions of the Sub-Fund are denominated in Singapore Dollar, United States Dollar and Japanese Yen. Investors may subscribe in United State Dollar and Japanese Yen at the applicable rate of exchange from Singapore Dollar. In respect of the SGD-Hedged Class and USD-Hedged Class units, the Manager has the ability to hedge the units of such class in relation to the currency of the underlying investments, which is Japanese Yen, as they deem appropriate. Where hedging of this kind is undertaken, the Manager may engage, for the exclusive account of the SGD-Hedged Class and USD-Hedged Class units in currency forwards, currency futures, currency option transactions and currency swaps in order to preserve the value of the SGD-Hedged Class and USD-Hedged Class units against the currency of the underlying investments. The effects of this hedging will be reflected in the Net Asset Value of the SGD-Hedged Class and USD-Hedged Class, respectively, and therefore, in the performance of the relevant class. Similarly, any expenses arising from such hedging transactions will be borne by the respective class units. The management fee rates are the same for all five classes. The management fee rate is 1.4% per annum.

All the classes of units of the Sub-Fund may be subscribed by all investors.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss and in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP 7") issued by the Institute of Singapore Chartered Accountants in July 2020 for the financial year beginning on or after 1 July 2020.

The adoption of the revised RAP 7 did not result in substantial changes to the accounting policies of the Sub-Fund and had no material effect of the amounts reported for the current or prior years.

# (b) Recognition of income

Dividend income is recognised when the right to receive payment is established.

Interest income is recognised on a time proportion basis using the effective interest method.

#### (c) Financial derivatives

Financial derivatives are entered into for the purposes of efficient portfolio management, tactical asset allocation or specific hedging of financial assets held as determined by the Manager and in accordance with the provisions of the Trust Deed

Financial derivatives outstanding at the end of the financial year are measured at their fair values using the marked-to-market method, and the resultant gains and losses are taken up in the Statement of Total Return.

## (d) Investments

Investments are classified as financial assets at fair value through profit or loss.

# (i) Initial recognition

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

#### (ii) Subsequent measurement

Investments are subsequently carried at fair value. Net change in the fair value of investments are included in the Statement of Total Return in the year in which they arise.

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

## (d) <u>Investments</u> (continued)

# (iii) Derecognition

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sale of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

### (e) Basis of valuation of investments

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market price used for investments in equities held by the Sub-Fund is the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of fair value.

#### (f) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

#### (g) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand which are subject to an insignificant risk of changes in value.

#### (h) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

# (i) Foreign currencies

# (i) Functional and presentation currency

Subscriptions and redemptions of the units in the Sub-Fund is denominated in Singapore Dollar, United States Dollar and Japanese Yen.

The performance of the Sub-Fund is measured and reported to the investors in Singapore Dollar and majority of the Sub-Fund's expenses are incurred in Singapore Dollar. The Manager considers the Singapore Dollar as the currency which most faithfully represent the economic effects of the underlying transactions, events and conditions. The Sub-Fund's functional and presentation currency is the Singapore Dollar.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the reporting date are recognised in the Statement of Total Return. Translation differences on non-monetary financial assets and liabilities such as equities are also recognised in the Statement of Total Return within the net gain or loss on investment.

#### (i) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Sub-Fund or the counterparty.

#### 3. INCOME TAX

The Sub-Fund is approved by the Monetary Authority of Singapore (MAS) for the Enhanced-Tier Fund ("ETF") Tax Incentive Scheme under Section 13U\* of the Income Tax Act 1947 and the relevant Regulations. Subject to certain conditions being met on an annual basis, the Sub-Fund may enjoy Singapore corporate tax exemption on "specified income" derived from "designated investments" for the life of the Sub-Fund. The tax exemption does not apply in the year when the relevant conditions are not met. Losses from "designated investments" are correspondingly disregarded. The terms "specified income" and "designated investments" are defined in the relevant income tax regulations.

\*The Singapore Attorney General issued the Revised Edition of Acts 2020 effective 31 December 2021 which streamlined and renumbered various Acts, including for the Income Tax Act. The ETF Scheme previously provided under Section 13X of the Income Tax Act is now provided under Section 13U of the Income Tax Act 1947.

|                     | 2021    | 2020    |
|---------------------|---------|---------|
|                     | \$      | \$      |
| Overseas income tax | 828,497 | 760,160 |

The overseas income tax represents tax deducted at source on dividends derived from outside Singapore.

#### 4. RECEIVABLES

|   | 2021    | 2020    |
|---|---------|---------|
|   | \$      | \$      |
| Amount receivable for creation of units | 16.804  | 74.578  |
| Dividends receivable                    | 160,726 | 97.029  |
| Other receivables                       | 305,937 | 69,492  |
| Other receivables                       |         |         |
|   | 483,467 | 241,099 |

#### 5. FINANCIAL DERIVATIVES AT FAIR VALUE

Financial derivatives comprise foreign exchange spot contracts and foreign exchange forward contracts due for settlement within 1 month (2020: 1 month) from the reporting date. The contracts or underlying principal amounts of these financial derivatives and their corresponding gross fair values at the reporting date are analysed below.

#### As at 31 December 2021

|                                    | Contract or<br>underlying<br>principal | Fair v  | <i>r</i> alue |

### 9. FINANCIAL RISK MANAGEMENT

The Sub-Fund's activities expose it to a variety of market risk (including price risk, interest rate risk and currency risk), credit risk and liquidity risk. The Sub-Fund's overall risk management programme seeks to minimise potential adverse effects on the Sub-Fund's financial performance. The Sub-Fund may use financial futures contracts, options and/or currency forward contracts subject to the terms of the Trust Deed to moderate certain risk exposures. Specific guidelines on exposures to individual securities and certain industries are in place for the Sub-Fund at any time as part of the overall financial risk management to reduce the Sub-Fund's risk exposures.

The Sub-Fund's assets principally consist of investment in equities. They are held in accordance with the published investment policies of the Sub-Fund. The allocation of assets between the various types of investments is determined by the Manager to achieve their investment objectives.

The following is a summary of the main risks and risk management policies:

#### (a) Market risk

Market risk is the risk of loss to the value of financial investments because of changes in market conditions like interest and currency rate movements and volatility in security prices. External factors such as changes in economic environment, consumption patterns and investor's expectation contribute to market risk which may have a significant impact on the asset's value.

## 9. FINANCIAL RISK MANAGEMENT (continued)

## (a) Market risk (continued)

The Sub-Fund's investments are substantially dependent on changes in market prices. The Manager monitors the Sub-Fund's investments closely so as to assess changes in fundamentals and valuation. Although the Manager makes reasonable efforts in the choice of investments, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the asset value of the Sub-Fund. Guidelines are set to reduce the Sub-Fund's risk exposures to market volatility such as diversifying the portfolio by investing across various geographies/industries.

COVID-19 pandemic continues to evolve and develop. The situation is dynamic with various cities and countries around the world responding in different ways to address the pandemic. As a result of the COVID-19 pandemic, global financial markets have experienced significant volatility. Given the extent of the crisis, it is difficult to estimate the impact or duration of the volatility on the portfolio of the Sub-Fund. The Manager is closely monitoring the development of the COVID-19 pandemic and its related impact.

The Sub-Fund's market risk is affected primarily by three components: changes in actual market prices, interest rate volatilities and foreign exchange movements.

#### (i) Price risk

The Sub-Fund's sensitivity to the market is measured using its beta, a ratio that describes how the expected return of a portfolio is correlated to the return of the financial market as a whole. The daily funds' price movements are measured against the daily price movement of the benchmark to derive the beta.

As at 31 December 2021, the Sub-Fund's beta was 1.01 (2020: 0.99) which was calculated based on the daily returns over the preceding 12 months for the Sub-Fund and its benchmark (2020: based on the daily returns over the preceding 12 months for the Sub-Fund and its benchmark).

## 9. FINANCIAL RISK MANAGEMENT (continued)

- (a) Market risk (continued)
- (i) Price risk (continued)

The table below summarises the impact of increases/decreases from the Sub-Fund's underlying investments in equities on the Sub-Fund's net assets attributable to the unitholders as at 31 December 2021 and 2020. The analysis was based on the assumptions that the index components within the benchmark index increased/ decreased by a reasonable possible shift, with all variables held constant and that the fair value of the Sub-Fund's investments moved according to the beta.

Impact of 5% (2020: 5%) movement in benchmark on net assets attributable to the

|                  |                    | ••••••     |            |

| Growth Fund      | TOPIX Total Return | 15,101,570 | 13,949,427 |

### (ii) <u>Interest rate risk</u>

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

The Sub-Fund does not hold substantial financial assets or liabilities of which the values are sensitive to changes in interest rates. The Sub-Fund invests in equity securities, which may be subject to interest rate risk as any interest rate change may affect the equity risk premium though at varying degrees. To manage this risk, the Manager analyses how interest rate changes may affect different industries and securities and then seeks to adjust the Sub-Fund's portfolio investments accordingly. However, the effects of changes in interest rates on the Sub-Fund's portfolio may not be quantified as the relationship between interest rates and the value of the equity securities is indirect. Hence, no separate sensitivity analysis has been presented for the Sub-Fund.

#### (iii) Currency risk

The Sub-Fund has monetary financial assets/liabilities denominated in currencies other than the functional currency and the Sub-Fund may be affected favorably or unfavorably by exchange rate regulations or changes in the exchange rates between the functional currency and such other currencies. The Sub-Fund may enter into foreign currency contracts designed to either hedge some or all of this exposure, or alternatively increase exposure to preferred foreign currencies.

# 9. FINANCIAL RISK MANAGEMENT (continued)

- (a) Market risk (continued)
- (iii) <u>Currency risk</u> (continued)

The tables below summarise the Sub-Fund's exposure to key currencies at the end of the financial year. Monetary and non-monetary items have been taken into account for the analysis.

| As at 31 December 2021   | I JPY   | USD   | SGD  | Total   |

## 9. FINANCIAL RISK MANAGEMENT (continued)

- (a) Market risk (continued)
- (iii) <u>Currency risk</u> (continued)

Equity investments are non-monetary financial assets and are exposed to both currency risk and price risk. As these financial assets are non-monetary, no separate sensitivity analysis has been performed to analyse currency risk. The impact of currency risk arising from these financial assets on the Sub-Fund's net asset value has been included in the above price risk sensitivity analysis.

The Sub-Fund's monetary assets/liabilities are measured for their sensitivity to exchange rate movements based on the balance of the monetary assets/liabilities, forecasted exchange rate movements and the net asset value of the Sub-Fund.

As at 31 December 2021 and 2020, the Sub-Fund's exposure to foreign currency fluctuations with respect to the monetary assets/liabilities are not considered to be significant except for the currency presented in the table below which shows the Sub-Fund's sensitivity to exchange rate movements on significant monetary assets/liabilities denominated in foreign currencies, should those currencies increase by a reasonable possible shift with all other variables held constant. This sensitivity analysis is not presented separately should the currency decrease as it is the reversal of the impact disclosed below.

## 9. FINANCIAL RISK MANAGEMENT (continued)

## (b) Liquidity risk

- inflows

Payables

- outflows

The Sub-Fund is exposed to daily redemption of units. It therefore invests the majority of its assets in investments that are traded in an active market and can be readily disposed of.

The tables below analyse the Sub-Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

## 9. FINANCIAL RISK MANAGEMENT (continued)

## (c) Credit risk

Credit risk is the risk that counterparty will fail to perform contractual obligations, either in whole or in part, under a contract.

Concentrations of credit risk are minimised primarily by:

- ensuring counterparties, together with the respective credit limits, are approved,
- ensuring that transactions are undertaken with a large number of counterparties, and
- ensuring that the majority of transactions are undertaken on recognised exchanges.

All transactions in listed securities are settled/paid upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Credit risk also arises from cash and cash equivalents and assets held with financial institutions.

The Sub-Fund may also enter into derivatives to manage its exposures to currency risk and price risk, including foreign exchange forward contracts and options. Hence, the Sub-Fund is also exposed to the risk that its derivatives held with counterparties may not be recoverable in the event of any default by the parties concerned. The Manager minimises the Sub-Fund's credit risk by undertaking transactions with banks that are part of banking groups with good credit ratings assigned by Standard and Poor's ("S&P") or Moody's.

For purposes of impairment assessment, the Sub-Fund's assets which are measured at amortised cost are considered to have low credit risk as they are not due for payment at the end of the reporting period and there has been no significant increase in the risk of default on the receivables since initial recognition. Accordingly, for the purpose of impairment assessment for these receivables, the loss allowance is measured at an amount equal to 12-month expected credit losses ("ECL"). The ECL for these assets as at the end of the reporting period is not significant.

## 9. FINANCIAL RISK MANAGEMENT (continued)

## (c) <u>Credit risk</u> (continued)

The tables below summarise the credit rating of banks and custodian in which the Sub-Fund's assets are held as at 31 December 2021 and 2020.

| As at 31 December 2021  | Credit<br>rating ## | Source of<br>credit rating |
|---|---------------------|----------------------------|
| Custodian The Hongkong and Shanghai Banking Corporation Limited                             | AA-                 | S&P                        |
| Bank The Hongkong and Shanghai Banking Corporation Limited                                  | AA-                 | S&P                        |
| As at 31 December 2020  | Credit<br>rating ## | Source of credit rating    |
| Custodian Citibank N.A., Citigroup® Global Transaction Services, Securities & Fund Services | A+                  | S&P                        |
| Bank Citibank N.A. The Bank of New York Mellon The Hongkong and Shanghai Banking            | A+<br>A             | S&P<br>S&P                 |
| Corporation Limited   | AA-                 | S&P                        |

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets.

The credit ratings are based on the Long-Term Issuer Ratings published by the rating agency.

<sup>##</sup> Group credit ratings are presented for unrated subsidiaries.

## 9. FINANCIAL RISK MANAGEMENT (continued)

### (d) <u>Capital management</u>

The Sub-Fund's capital is represented by the net assets attributable to unitholders. The Sub-Fund strives to invest the subscriptions of redeemable participating units in investments that meet the Sub-Fund's investment objectives while maintaining sufficient liquidity to meet unitholders' redemptions.

### (e) Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following tables analyse within the fair value hierarchy the Sub-Fund's financial assets and liabilities (by class) measured at fair value at 31 December 2021 and 2020:

| Level 1<br>\$ | Level 2<br>\$  | Level 3<br>\$                                 | Total<br>\$  |
|---------------|----------------|---|--|
|               |                |   |  |
|               |                |   |  |
| 299,040,983   | -              | -   | 299,040,983  |
|               |                |   |  |
| -             | 456,655        | -   | 456,655  |
| 299,040,983   | 456,655        | -   | 299,497,638  |
|               |                |   |  |
|               |                |   |  |
| -             | 1,426          | -   | 1,426  |
|               | \$ 299,040,983 | \$ \$ 299,040,983 456,655 299,040,983 456,655 | \$ \$ \$ 299,040,983 456,655 - 299,040,983 456,655 - |

## 9. FINANCIAL RISK MANAGEMENT (continued)

## (e) <u>Fair value estimation</u> (continued)

| As at 31 December 2020              | Level 1     | Level 2 | Level 3 | Total       |
|-------------------------------------|-------------|---------|---------|-------------|
|                                     | \$          | \$      | \$      | \$          |
| Assets                              |             |         |         |             |
| Portfolio of investments            |             |         |         |             |
| <ul> <li>Quoted equities</li> </ul> | 281,806,606 | -       | -       | 281,806,606 |
| Financial derivatives at            |             |         |         |             |
| fair value                          | -           | 70,486  | -       | 70,486      |
|                                     | 281,806,606 | 70,486  | -       | 281,877,092 |
|                                     |             |         |         |             |
| Liabilities                         |             |         |         |             |
| Financial derivatives at            |             |         |         |             |
| fair value                          | -           | 64,278  | -       | 64,278      |

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, comprise active listed equities. The Sub-Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include over-the-counter derivatives.

Except for cash and cash equivalents which are classified as Level 1, the Sub-Fund's assets and liabilities not measured at fair value at 31 December 2021 and 2020 have been classified as Level 2. The carrying amounts of these assets and liabilities approximate their fair values as at the reporting date.

#### (f) Offsetting financial assets and financial liabilities

There are no financial assets or financial liabilities subject to offsetting, enforceable master netting arrangement and similar agreement as at 31 December 2021 and 2020.

#### 10. RELATED PARTY TRANSACTIONS

Management fee is paid to the Manager, while trustee fee is paid to the Trustee. These fees paid or payable by the Sub-Fund shown in the Statement of Total Return and in the respective notes to the financial statements are on terms set out in the Trust Deed. Effective 1 January 2021, there was a change of Trustee from Citicorp Trustee (Singapore) Limited to HSBC Institutional Trust Services (Singapore) Limited. The new trustee fee rate for the Sub-Fund will be up to 0.02%, subject to a yearly minimum of \$8,000 and is waived for financial year 2021.

In addition to the related party information shown elsewhere in the financial statements, the following significant transactions took place during the financial year between the Sub-Fund and related parties at terms agreed between the parties and within the provisions of the Trust Deed:

|  | 2021<br>\$ | 2020<br>\$ |
|--|------------|------------|
| Interest expenses incurred with a bank which is a related company of the Trustee | 3,533      | 4,248      |
| Transaction fees charged by a related company of the Trustee                     | 40         | 4,173      |
| Valuation and administration fees charged by the Trustee                         | 60,706     | -          |
| Registration fees charged by a related company of the Trustee                    | 17,535     | -          |
| Cash transfer fees charged by a related company of the Trustee                   | 16,742     | -          |
| Custodian fees charged by a related company of the Trustee                       | 3,594      | 43,768     |
| Bank service fees charged by a bank which is a related company of the Trustee    | 15,279     | 137        |

#### 11. FINANCIAL RATIOS

|                                       | <b>2021</b><br>% | <b>2020</b><br>% |
|---------------------------------------|------------------|------------------|
| Expense ratio <sup>1</sup>            | 1.46             | 1.55             |
| Portfolio turnover ratio <sup>2</sup> | 27               | 26               |

The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the Sub-Fund's expense ratio was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include, (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Sub-Fund does not pay any performance fee. The average net asset value is based on the daily balances.

The following table presents the total operating expenses and average net asset value of the Sub-Fund for the financial year ended 31 December 2021 and 2020.

|                          | 2021<br>\$  | 2020<br>\$  |
|--------------------------|-------------|-------------|
| Total operating expenses | 4,442,703   | 3,960,101   |
| Average net asset value  | 303,462,529 | 255,727,799 |

The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments divided by the average daily net asset value as follows:

|  | 2021<br>\$  | 2020<br>\$  |
|--|-------------|-------------|
| Lower of purchases/sales of the underlying investments | 82,040,690  | 65,358,248  |
| Average daily net asset value                          | 303,462,529 | 255,727,799 |
