Publication of Prices and Notices to Shareholders

Notices are sent to registered shareholders and (when legally required) published in such newspapers as decided by the Directors and in the Recueil des Sociétés et Associations du Mémorial Luxembourg. The previous Dealing Day's prices for shares may be obtained during business hours from the local Investor Servicing team and are also available from the BlackRock website. They will also be published in such countries as required under applicable law and at the discretion of the Directors in a number of newspapers or electronic platforms worldwide. The Company cannot accept any responsibility for error or delay in the publication or non-publication of prices. Historic dealing prices for all shares are available from the Administrator or local Investor Servicing team.

General Information continued

Purchases and Sales

A detailed list of investments purchased and sold for any Fund during the period is available upon request, free of charge, from the Registered office as mentioned on page 2, or the offices of the Representatives as mentioned on page 3.

Disclosure Policy

Details of month end holdings and valuations for all BlackRock Global Funds will be made available upon request from the Investor Services Centre to any BlackRock Global Funds shareholder no earlier than 10 business days after a given month end. BlackRock Global Funds reserves the right to require shareholders to sign an appropriate non-disclosure document prior to providing such information.

For German investors

This interim report and unaudited financial statements (the “Report and Financial Statements”) may be translated into other languages. Any such translation shall only contain the same information and have the same meaning as the English language Report and Financial Statements. To the extent that there is any inconsistency between the English language Report and Financial Statements and the Report and Financial Statements in another language, the English language Report and Financial Statements will prevail, except to the extent (and only to the extent) that it is required by law of any jurisdiction where the shares are sold, that in an action based upon disclosure in a Report and Financial Statements in a language other than English, the language of the Report and Financial Statements on which such action is based shall prevail. Any disputes as to the terms of the Report and Financial Statements, regardless of the language of the Report and Financial Statements, shall be governed by and construed in accordance with the laws of Luxembourg.

The prospectus, the KIID and a full statement of portfolio changes are available free of charge, from the German Paying Agent.

Please note that a notification regarding the distribution of shares in the Federal Republic of Germany pursuant to section 310 of the German Capital Investment Code (Kapitalanlagegesetzbuch) has not been filed in respect of the following Sub-Fund: Asian Multi-Asset Income Fund. Therefore, shares of this Sub-Fund may not be distributed in the Federal Republic of Germany.

Chairman's Letter to Shareholders

1 September 2019 to 29 February 2020

Dear Shareholder,

I am writing to update you on the activities of BlackRock Global Funds ('BGF') over the six months to the end of February 2020. The BGF range comprised 82 funds (each a "Fund", together the "Funds") as at 29 February 2020.

The individual Funds' performance is covered in more detail in the separate Investment Adviser's report. Most equity and bond markets were reasonably buoyant for much of the period, marking a significant shift away from the volatility seen at the end of 2018. This played out despite the backdrop of considerable geopolitical uncertainty. In particular, for most of the period under review, US/China trade tensions rumbled on, though a 'phase one' agreement was signed in mid-January.

However, just as investors were breathing a sigh of relief, the global economy and financial markets came under intense pressure from the spread of a highly infectious COVID-19 outbreak. The spread of COVID-19 prompted widespread shutdowns in China, its place of origin, spreading to much of Asia and then on to Europe and began one of the sharpest pull backs in economic activity and financial markets in history. International Monetary Fund head Kristalina Georgieva labelled it the "most pressing uncertainty" facing the world economy.

There was an immediate impact on Purchasing Managers' Index numbers and other leading indicators across the globe. The Federal Reserve (the "Fed") acted swiftly to cut rates, but most policymakers recognised that monetary policy alone would not be enough to provide short-term support for businesses hurt by the crisis. Governments stepped in with vast fiscal stimulus packages in an attempt to limit the impact on companies and employment.

The global economy had been in relatively good shape until the virus hit. Freed from the turmoil created by the trade wars, manufacturing had started to recover. Export-focused economies such as Germany had narrowly avoided recession. The global consumer had continued to support markets and investors were becoming more positive.

At the same time, the Fed had committed to keeping interest rates low for the foreseeable future. The Fed lowered rates three times in 2019 and then again as an emergency measure in early 2020, while the European Central Bank ("ECB") reaffirmed its 'lower for longer' position under incoming head Christine Lagarde and resumed quantitative easing. Global central banks are expected to follow where the US leads, but loosening policy further.

US growth continued to drive the global economy, though the impact of tax cuts and infrastructure spending had begun to wane. China continued to move along at around 6% per year, lower than recent history, but still relatively high for such a vast economy. Its manufacturing sector slipped into negative territory on the back of trade tensions though it had started to recover by the middle of the year.

Europe's growth continued to be lacklustre for much of the year, with Germany particularly weak. Its flagship car sector suffered in the cross-fire of the trade war, but was also hit by regulatory pressure and the move to electric vehicles. In the UK, there appears to be some way forward in the Brexit crisis as Boris Johnson won a decision victory in the December General Election. However, there is still a mountain to climb in negotiating a trade agreement between the two sides. There was plenty of early posturing from both sides in January and February as talks began.

Markets bounced around but ended the year significantly higher. Once again, the technology sector led the way as it continued to deliver outsized earnings growth. Investors still preferred the safety of structural growth companies and appeared not to be too worried how much they paid for it. Government bond markets rallied as the view on interest rates changed and then in response to the virus outbreak. The yield on the 10-year treasury dipped to around 0.6%, around 2% lower than where it was in February 2019.

As the aforementioned COVID-19 outbreak escalated towards the end of the year, the severe effects on global economies and markets became increasingly observable as the world witnessed continued travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19 has adversely affected the economies of many nations across the entire global economy, individual issuers and capital markets, and could continue with extents that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

The information stated in this report is historical and not necessarily indicative of future performance.

Chairman's Letter to Shareholders

1 September 2019 to 29 February 2020 continued

Regulatory change continued throughout Europe and a number of these future changes could have implications for investors.

- ▶ European Market Infrastructure Regulation ("EMIR"): This aims to increase the transparency and reduce the risk relating to over-the-counter derivatives. It is now being implemented by regulators in individual countries across Europe.
- ▶ Packaged Retail Investment and Insurance-based Investment Products ("PRIIPs"): The new rules on key information documents for packaged retail and insurance-based investment products came into effect at the start of January 2018. The Company will benefit from the transitional period available for a UCITS, which has now been extended to 31 December 2021.

The assets under management ("AUM") in the BGF range rose 0.5% from US\$130.4 billion to US\$131 billion over the period.

Funds investing in high growth areas saw the strongest rise in assets over the period. The FinTech Fund, for example, saw assets rise 66.2% to US\$65 million, while the Next Generation Technology Fund saw assets rise 107.2% to US\$196.9 million. The World Technology Fund rose 40.3% to US\$2.6 billion. The Sustainable Energy Fund posted a 21.8% rise to US\$1.2 billion.

Income remained attractive to investors, which created significant demand for higher yielding government bond markets. The China Bond Fund, for example, saw assets rise 116.7% to US\$2.9 billion. The Dynamic High Income Fund also saw a strong rise in assets, as did our range of emerging market bond funds.

Asian Equity funds lost their attraction to investors as markets slumped in response to the COVID-19 outbreak. The China Fund dropped 10.4% to US\$1.1 billion, while the Asia Pacific Equity Income Fund fell 22.1% to US\$221 million. Equity income funds were weak in general. The Global Equity Income Fund dipped 11.2% to US\$1.2 billion.

March 2020

Investment Adviser's Report

Performance overview

1 September 2019 to 29 February 2020

Market Review

In spite of a difficult geopolitical backdrop, global stock markets proved resilient in 2019. After a volatile end to 2018, the catalyst was a change in policy from central banks – and the Fed in particular. Markets rallied on each rate cut and almost all markets across the globe reaped the benefits. However, the uncertain impact of the COVID-19 outbreak looked set to derail markets once again by the end of the period under review.

For much of the 12 month period, global economic growth was weaker. Manufacturing in particular was hard-hit by the ongoing tensions between China and the US. Export-led countries such as Japan and Germany have seen their economies struggle and their stock markets follow suit.

With growth still elusive, companies that could grow their earnings were still prized by investors. 'Value' companies staged a brief comeback in the final quarter of 2019 but could not sustain their rally and had lost favour again by the time the COVID-19 outbreak hit. Once again, it was the major global technology companies that lead stock markets higher, even in the face of some lacklustre corporate earnings. This helped ensure US markets once again outpaced those of its near rivals.

Among the other major markets, Europe showed surprising resilience given the weakness of its economic backdrop and in its anchor economy, Germany. The ECB was supportive, resuming its quantitative easing programme and vowing to keep rates low. At the same time, the market has a high yield at a time when much of the European fixed income market remained on a negative yield.

Long in the Brexit doldrums, UK assets saw a boost from a decisive election result in December and the end of any potential for a hard left government. The Brexit negotiations remain a source of potential volatility, but for the time being, the UK's turmoil appears to be behind it.

Emerging markets ("EM") were given some breathing room by the cut in US rates, allowing many of their central banks to cut rates. Brazil, for example, cut rates for the fourth consecutive meeting in December, which should act to boost the economy next year. Chinese shares had been enjoying a rebound until they were derailed by the COVID-19 outbreak.

Bond prices reflected both the impact of looser monetary policy and widespread risk aversion. The US 10 year treasury yield fell from almost 2.8% in February 2019 to just 0.6% by the end of February 2020. The Fed remains poised to ease rates further should the COVID-19 outbreak derail the global economy.

Fund Performance

Performance data stated is for the main (A) share class of the relevant Fund, stated in the base currency of the Fund, net of fees and expenses.

Equity Fund Performance

Global equities were volatile over the period. The Global Equity Income Fund fell 4.27%, behind its benchmark, the MSCI All Country World Net TR Index, which rose by 1.13%. The more growth-focused Global Dynamic Equity Fund rose 0.20%, behind its benchmark (60% S&P 500 / 40% FTSE World Ex-US Index), which rose 1.00%.

Shares of small and medium sized companies were hit hard by the 'risk off' sentiment in early-2020. The Systemic Global SmallCap Fund fell 2.08%, behind its benchmark, the MSCI AC World Small Cap, which fell 1.02%.

Of the individual country funds, Japan Small & MidCap Opportunities Fund was flat, just ahead of its S&P Japan Mid Small Cap Index, which dropped 2.54%. The Swiss Small & MidCap Opportunities Fund rose 1.25%, behind its benchmark, the SPI Extra Index.

European equities were surprisingly resilient, in spite of the weak economic backdrop. The Continental European Flexible Fund rose 3.52%, significantly ahead of its benchmark the FTSE World Europe ex UK Index, which fell by 0.20%. The European Value Fund rose 2.66% compared to a drop of 1.50% in the MSCI Europe Value Index. The European Equity Income Fund rose 2.79%. This was ahead of the MSCI Europe Index, its benchmark, which fell 0.86%. The European Focus Fund rose 3.96% while the European Special Situations Fund rose by 0.79%. Both are benchmarked to the MSCI Europe Index, which fell 0.86%.

The picture for US equities was mixed. The US Growth Fund rose 0.95%, behind the Russell 1000 Growth Index, which was up by 5.40%. The US Basic Value Fund fell by 5.96% underperforming the Russell 1000 Value Index, which was down by 1.69% over the period.

Japanese funds had a difficult time over the six months under review. The Japan Flexible Equity Fund rose 1.46%, behind the MSCI Japan Index, which rose 1.99%.

Performance across Asia and EM funds was hit by risk aversion at the start of 2020. The Asian Growth Leaders Fund rose 3.50% behind its benchmark, MSCI All Country Asia ex Japan Index, which rose 5.47%.

The India Fund rose 3.81%, ahead of its MSCI India Index benchmark, which dropped 0.13%. The Emerging Markets Fund, which has a more broad exposure across the EM investment universe, rose by 5.48%, well ahead of its benchmark, the MSCI Emerging Markets Index, which was up 2.93%. The Emerging Markets Equity Income Fund, which shares the same benchmark, was up 0.87%.

Investment Adviser's Report

Performance overview

1 September 2019 to 29 February 2020 continued

The Latin American Fund fell 5.60%, just ahead of its benchmark, the MSCI Emerging Markets Latin America Index, which dipped 5.89%. The Emerging Europe Fund fell 6.81%, behind its benchmark, the MSCI Emerging Markets Europe 10/40 Index, which fell 4.04% over the period.

In natural resources, the World Energy Fund struggled as the global economy flagged, falling 15.38%, behind its benchmark, the MSCI World Energy 10/40 Index (Net) (USD), which was down 12.91% over the period. The World Mining Fund fell 7.44% but underperformed its benchmark, the Euromoney Global Mining Constrained Weights Net Total Return Index, which fell by 6.34%. The World Gold Fund fell 9.32%, behind its benchmark, the FTSE Gold Mines Index, which fell 9.60%.

Mixed Asset Fund Performance

The diversified Global Allocation Fund – which invests in a mixture of equity, fixed income and cash securities – rose 0.75% behind its reference benchmark, which rose by 1.40% (the benchmark comprises 36% S&P 500 Index, 24% FTSE World Index (Ex-US) Index, 24% ICE BofAML Current 5-Yr US Treasury Index, 16% FTSE Non-USD World Government Bond Index).

The Global Multi-Asset Income Fund rose by 0.93% over the period. The Fund combines the ability to allocate actively across a full range of asset classes and geographies at a top-down level with a focus on adding value through bottom-up security selection by specialist teams in each key asset class.

Fixed Income Fund Performance

In fixed income, investors moved to quality government bonds as worries mounted over the strength of the global economy and the impact of COVID-19. The Global Government Bond Fund rose 1.08%, marginally behind its benchmark, the FTSE World Government Bond USD Hedged Index, which rose 1.79%. The Euro Corporate Bond Fund dipped 0.91%, compared to a fall of 0.45% for its benchmark, the BofA Merrill Lynch Euro Corporate Index. The Global Corporate Bond Fund rose 2.21%, compared to a rise of 3.22% for its benchmark, the Bloomberg Barclays Global Aggregate Corporate Bond USD Hedged Index.

The Euro Bond Fund fell 0.90%, while its benchmark, the Bloomberg Barclays Euro-Aggregate 500mm+ Bond Index, fell 0.49%. The Euro Short Duration Bond Fund fell 0.69%, the Fund has no benchmark.

The Global High Yield Bond Fund rose 2.73%, ahead of its benchmark, the BofA Merrill Lynch Global High Yield Constrained USD Hedged Index, which rose 2.40%. The ESG Emerging Markets Local Currency Bond Fund rose 1.41% over the period. This was ahead of its benchmark, the JP Morgan ESG Global Bond Index Emerging Markets Global Diversified Index, which rose 1.02%. The broader ESG Emerging Markets Bond Fund rose 2.85%, ahead of its benchmark (JP Morgan ESG Emerging Markets Bond Index Global Diversified) which rose 2.69%.

The Asian Tiger Bond Fund rose 2.60%, against a rise of 3.36% for its benchmark, the JP Morgan Asian Credit Index. The Fixed Income Global Opportunities Fund delivered a positive absolute return of 2.12%.

Outlook

The COVID-19 outbreak looks set to derail the global economy and may even push it into recession. Policymakers may make the difference between a deep and shallow recession. We believe they have three key responses: prevent a sustained tightening of financial conditions; help stave off cash flow shocks that would threaten to shutter otherwise sound businesses; and support individuals whose incomes are eroded by the disruption. We see a need for a decisive and pre-emptive policy response that addresses these three areas.

Economic growth and markets have historically responded with a V-shaped pattern to temporary disruptions caused by past epidemics, with the recovery in economic activity often fuelled by the pent-up demand in retail and a restart of manufacturing sector. Yet key uncertainties around this outbreak may make history an unreliable guide. It is still too soon to gauge the magnitude and duration of this outbreak as well as its overall impact on the global economy.

Prior to the outbreak, growth prospects had started to improve in key developed economies since late 2019 with improving data for the US, the euro area, Japan and the UK. Growth momentum was also starting to recover in EM late last year.

However, economic numbers have already started to decline in the face of the COVID-19 outbreak. For the time being, we see it delaying, but not derailing, a growth uptick that should take root this year, though we recognise that there is a risk of a more serious scenario. China's central bank has already started to ease policy, and we are likely to see more support from Chinese authorities to shore up growth. There has been monetary support from central banks across the globe.

For markets, the shock impact of COVID-19 has been large and sharp, but we believe investors should be level headed. Market movements have been reminiscent of the financial crisis of 2008, but the global economy and financial system are on a much stronger footing. Investors should take a long term perspective.

March 2020

Investment Adviser's Report

Performance overview

1 September 2019 to 29 February 2020 continued

Disclosed in the table below are the performance returns for the A Class Non-Distributing Share Class for each Fund, net of fees and expenses, which has been selected as a representative Share Class. Performance returns for any other Share Class can be made available on request.

Calculation methodology is based on industry standards.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of an investment and the income from it will vary and the initial investment amount cannot be guaranteed. The Fund invests a large portion of assets which are denominated in currencies other than US dollar; hence changes in the relevant exchange rate will affect the value of the investment. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions may be made only on the basis of the current Prospectus, of which the most recent annual report and audited financial statements and interim report and unaudited financial statements form an integral part, as well as Key Investor Information Documents (KIIDs). Copies are available from Investor Services, the Transfer Agent, the Management Company or any of the Representatives or Distributors. The BGF range is only available for investment by non-US persons. It is not offered for sale or sold in the US, its territories or possessions.

The Funds are not registered for sale to the public in all jurisdictions. Further details on distribution of shares of the Funds are included in the Authorised Status on page 3.

Prices for each Share Class are quoted in the Base Currency of the Fund with the exception of Hedged and UK reporting Share Classes. In the case of those Share Classes for which two or more Dealing Currencies are available, the additional dealing currency prices are calculated by converting the price at the relevant spot exchange rate at the time of valuation.

Prices for each Share Class are quoted in the Base Currency of the Fund with the exception of Hedged and UK reporting Share Classes. In the case of those Share Classes for which two or more Dealing Currencies are available, the additional dealing currency prices are calculated by converting the price at the relevant spot exchange rate at the time of valuation.

* Dilution adjustment included, see Note 2(g), for further details.

The notes on pages 791 to 803 form an integral part of these financial statements.

Prices for each Share Class are quoted in the Base Currency of the Fund with the exception of Hedged and UK reporting Share Classes. In the case of those Share Classes for which two or more Dealing Currencies are available, the additional dealing currency prices are calculated by converting the price at the relevant spot exchange rate at the time of valuation.

* Dilution adjustment included, see Note 2(g), for further details.

Dividends declared	16	(486,519,813)	–	(2,766,115)
Foreign exchange adjustment	2(e)	(231,596,690)	–	–
Net assets at the end of the period		131,036,990,994	207,308,802	221,326,335

* The combined figures have been calculated using the average exchange rates throughout the period. The resulting Foreign exchange adjustment of USD (231,596,690) represents the movement in exchange rates between 31 August 2019 and 29 February 2020. This is a notional amount, which has no impact on the Net Assets of the individual Fund.

(1) Fund name changed during the period, see Note 1, for further details.

(2) Fund launched during the period, see Note 1, for further details.

The notes on pages 791 to 803 form an integral part of these financial statements.

Notes to the Financial Statements

1. Organisation

The Company is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investments in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010 as amended from time to time and is regulated pursuant to such law.

The Company is an umbrella structure comprising separate compartments with segregated liability. Each compartment shall have segregated liability from the other compartments and the Company shall not be liable as a whole to third parties for the liabilities of each compartment. Each compartment shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such compartment.

As at 29 February 2020, the Company offered shares in 82 sub-funds (each a 'Fund'), together the 'Funds'. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The Share Classes have equivalent rights in the Company but carry different features and charging structures, which are described in more detail in the Company's Prospectus.

Significant events during the period ended 29 February 2020

The Swiss Small & MidCap Opportunities Fund continues to be closed to subscriptions from new and existing shareholders until further notice. Shareholders can redeem as usual.

Effective 2 October 2019, the Circular Economy Fund, denominated in USD was launched.

Effective 9 October 2019, the China A-Share Fund, denominated in USD was launched.

Effective 31 October 2019, Martha Boeckenfeld resigned from the Board of Directors of the Company.

Effective 3 December 2019, the North American Equity Income Fund terminated. As at 29 February 2020, a cash balance of USD 45,250 remained on the Fund, which will be distributed to shareholders.

Effective 31 December 2019, an updated Prospectus of the Company was issued. A letter was sent to shareholders informing them of the updates to the Prospectus.

Effective 31 December 2019, the Asian Multi-Asset Growth Fund changed its name to the Asian Multi-Asset Income Fund, the China A-Share Opportunities Fund changed its name to the Systematic China A-Share Opportunities Fund, the Global Enhanced Equity Yield Fund changed its name to

the Systematic Global Equity High Income Fund and the Global SmallCap Fund changed its name to the Systematic Global SmallCap Fund.

Effective 24 February 2020, an addendum to the Prospectus was issued.

Effective 29 February 2020, Francine Keiser resigned from the Board of Directors of the Company.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg investment companies and include the following significant accounting policies:

(a) Valuation of Investments and Other Assets

The Company's investments and other assets are valued as follows:

- ▶ transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the net asset value of certain funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Directors have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered;
- ▶ for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Directors, not representative of the fair market value, the value thereof shall be determined prudently and in good faith by the Directors on the basis of their expected disposal or acquisition prices;
- ▶ fixed income securities that are not listed on stock exchanges or traded on other regulated markets are valued at the last available mid price or yield equivalents obtained from one

Notes to the Financial Statements continued

or more dealers or pricing services. Securities traded in the OTC market are valued at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated by or under the direction of the Board of Directors of the Management Company as the primary market. Portfolio securities that are traded both in the OTC market and on a stock exchange are valued according to the broadest and most representative market;

- ▶ securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolio of the Fund;
- ▶ money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis, which approximates their fair market value;
- ▶ money market instruments held on the Euro Reserve Fund and the US Dollar Reserve Fund are valued on a mark-to-market basis. Where this is not possible, the assets are valued conservatively by using the mark-to model basis;
- ▶ time deposits are valued at amortised cost which approximates their fair market value;
- ▶ cash, deposits, bills payable on demand and other debts and prepaid expenses are valued at their nominal amount, unless it appears unlikely that such nominal amount is obtainable;
- ▶ assets which include, in particular, interest and dividends receivable, receivable for investments sold and receivable for fund shares subscribed, are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- ▶ liabilities, which include, in particular, expenses payable, income distribution payable, payable for investments purchased and payable for fund shares redeemed are valued at their nominal value.

Realised gains and losses on the disposal of investments are calculated using the average cost method and are reflected in the Statement of Operations and Changes in Net Assets.

(b) Income/Expense from Investments

The Company takes accounts for income from its investments on the following basis:

- ▶ interest income is accrued daily and includes the amortisation on a straight line basis of premiums and accretion of discounts;
- ▶ bank interest, fixed deposits, collective investment scheme income and money market deposit income are recognised on an accruals basis;
- ▶ dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- ▶ security lending income is accrued on a weekly basis;

- ▶ when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from the relevant parties, the amount receivable is written off;
- ▶ withholding tax reclaims are accounted for on a cash receipts basis;
- ▶ the date included in the description of any perpetual bonds in the Portfolio of Investments is the next callable date of the bonds and the interest rate disclosed under the description in the Portfolio of Investments is the interest rate applicable at the period end and is for information only as these bonds are bearing variable interest rates.

Negative yield expense relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument.

(c) Financial Derivative Instruments

During the period the Funds have entered into a number of forward foreign exchange and futures contracts. Open forward foreign exchange and futures contracts are valued at the cost to close the contracts on the valuation date. Gains/losses arising from these unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets.

The Funds can write covered call and put options and purchase call and put options. The Funds can also invest in spread options and synthetic cap options. A spread option is a type of option that derives its value from the difference between the prices of two or more assets. A synthetic cap option is an agreement between two parties providing the purchaser an interest rate ceiling or 'cap' on interest payment. The rate cap itself provides a periodic payment based upon the positive amount by which the reference index rate exceeds the strike rate. When the Funds write and/or purchase an option, an amount equal to the premium received or paid by the Funds is reflected as a liability or an asset. The liability for a written option and the asset for a purchased option are subsequently marked to market to reflect the current value of the option. The Directors have agreed to value exchange traded options based on mid prices or settlement prices rather than last traded prices as this methodology best reflects their estimated realisation value. Unlisted options are valued based upon daily prices obtained from third party pricing agents. When a security is sold through the exercise of an option, the premium received (or paid) is deducted from (or added to) the basis of the security sold. When an option expires (or the Funds enter into a closing transaction), the Funds realise a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received).

As at 29 February 2020, the Funds have entered into Contracts for Difference ("CFDs"). CFDs allow investors to take synthetic long or synthetic short positions with a variable margin. Unlike shares, with CFDs the buyer is potentially liable for far more

Notes to the Financial Statements continued

than the amount they paid on margin. This will result in the Fund holding cash received from shareholders on deposit with various institutions as described in the Prospectus. CFD positions entered into are subject to a daily financing charge, applied at a previously agreed rate above or below the applicable benchmark. The related dividend income or expense is disclosed net of withholding tax in the Statement of Operations and Changes in Net Assets.

The market value of the CFDs is determined by the last known traded price on the exchange on which the underlying securities or assets are traded or admitted for trading. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. The change in market value, if any, is recorded as net change in unrealised appreciation/(depreciation) in the Statement of Operations and Changes in Net Assets. Realised gains or losses on maturity or termination of the CFDs are presented in the Statement of Operations and Changes in Net Assets.

Gains and losses on sales of CFDs have been determined on a cost basis using the First In First Out ("FIFO") method.

The Funds have entered into swap agreements to exchange the return generated by one instrument for the return generated by another investment. In the case of credit default swaps, a series of premiums is paid to the seller of the protection, in return for a payment contingent on a credit event (predefined in the agreement). Where possible, swaps are marked to market based upon daily prices obtained from third party pricing agents and verified against the actual market maker. Where such quotations are not available swaps are priced based upon daily quotations from the market maker. In both cases changes in quotations are recorded as net change in unrealised appreciation/(depreciation) in the Statement of Operations and Changes in Net Assets. Realised gains or losses on maturity or termination of the swaps and the interest earned or incurred in relation to the swaps are presented in the Statement of Operations and Changes in Net Assets.

During the period, the Funds have entered into swaption transactions. These give the purchaser the right, but not the obligation to enter into an interest rate swap at a pre-set interest rate within a specified period of time. The swaption buyer pays a premium to the seller for this right. A written swaption gives the purchaser the right to receive fixed payments in return for paying a floating rate of interest. A purchased swaption gives the purchaser the right to pay a fixed rate of interest in return for receiving a floating rate payment stream. When the Fund writes/purchases a swaption, an amount equal to the premium received/paid by the Fund is recorded as a liability or an asset in the Statement of Net Assets.

During the period, the Dynamic High Income Fund, Global Conservative Income Fund and the Global Multi-Asset Income Fund purchased a number of Equity Linked Notes. A principal amount is paid to a broker at the market price of an underlying equity at an agreed date in return for a fixed coupon payment or payments. At maturity the Fund will receive the principal plus (up to an agreed cap level per the agreement) or minus any movements in the value of the underlying equity.

To Be Announced securities (TBAs) are related to mortgage backed securities issued by US government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Portfolio of Investments.

Although the Funds will generally enter into TBA purchase commitments with the intention of acquiring securities, the Funds may also dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction.

If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the Fund realises a gain or loss on the commitment without regard to any unrealised gain or loss on the underlying security. If the Fund delivers securities under the commitment, the Fund realises a gain or loss from the sale of the securities upon the unit price established at the date the commitment was entered into.

The Funds had unsettled TBAs as of 29 February 2020 which are included within receivable for investments sold and payable for investments purchased in the Statement of Net Assets.

The market values of the TBAs are presented in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the realised appreciation or depreciation on sales of the TBAs are presented in the Statement of Operations and Changes in Net Assets.

(d) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Funds has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets in currencies other than the currency of denomination of the respective Funds have been translated at the exchange rate prevailing at the Fund's valuation point in Luxembourg on 29 February 2020.

(e) Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency.

The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds. For the Statement of Net Assets, the exchange rates prevailing at the Fund's valuation point in Luxembourg on 29 February 2020 are:

CCY	EUR	GBP	JPY	CHF	CNH
USD	0.9118	0.7798	108.4150	0.9667	6.9917

Notes to the Financial Statements continued

For the Statement of Operations and Changes in Net Assets, the exchange rates are the average rate calculated over the period:

CCY	EUR	GBP	JPY	CHF	CNH
USD	0.9056	0.7794	108.7982	0.9845	7.0284

These figures are presented for information purposes only and are rounded to four decimal places. For financial statements purposes exchange rates to nine decimal places are applied.

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the period. The resulting Foreign exchange adjustment of USD (231,596,690) represents the movement in exchange rates between 31 August 2019 and 29 February 2020. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

(f) Exchange rates

The following exchange rates were used to translate the investments and other assets and other liabilities denominated in currencies other than the base currency of the Funds as at 29 February 2020.

The Renminbi is subject to foreign exchange restrictions and is not a freely convertible currency. The exchange rate used for the China Bond Fund is in relation to the offshore Renminbi ("CNH"), not the onshore Renminbi ("CNY"). The value of CNH could differ, perhaps significantly, from that of CNY due to a number of factors including without limitation those foreign exchange control policies and repatriation restrictions applied by the Chinese government from time-to-time as well as other external market forces. Any divergence between CNH and CNY may adversely impact investors.

(g) Dilution

The Directors may adjust the Net Asset Value ("NAV") per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund, deviates from the carrying value of these assets in the Funds, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the NAV of a Fund if on any Dealing Day the value of the aggregate transactions in Shares of all Classes of that Fund result in a net increase or decrease of Shares which exceeds one or more thresholds that are set by the Directors for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of fixed income Funds, of the NAV. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net subscriptions (inflows) than for net redemptions (outflows). In addition, the Directors may also agree to include extraordinary fiscal

Notes to the Financial Statements continued

charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment.

As at 29 February 2020, in accordance with the Prospectus Appendix B, 17.3, such a dilution adjustment was applied to the Euro-Markets Fund, European Equity Income Fund, European Value Fund, Global Multi-Asset Income Fund, Next Generation Technology Fund, US Growth Fund, US Small & MidCap Opportunities Fund, World Financials Fund, World Real Estate Securities Fund and World Technology Fund.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(h) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised appreciation/(depreciation) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included in depositary fees in the Statement of Operations and Changes in Net Assets of the Fund.

(i) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts.

(j) Fair valuation

If in any case a particular value is not ascertainable by the methods outlined above, or if the Board of Directors of the Company considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or asset will be such as the Board of Directors of the Company in its absolute discretion decides. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. The Board of Directors of the Company may set specific thresholds, that, where exceeded, result in an adjustment to the value of these securities to their fair value by applying a specific index adjustment.

The fair valued securities are evidenced by a “***” in the Portfolio of Investments.

As at 29 February 2020, such fair valuation adjustment was applied as per the table below:

Fund	Currency	Market value of fair valued securities	% of Net Assets
Asian Dragon Fund	USD	24,820,054	1.13
Continental European Flexible Fund	EUR	62,251,977	1.59
Emerging Markets Bond Fund [°]	USD	–	0.00
Emerging Markets Fund	USD	5,488,212	0.39
Fixed Income Global Opportunities Fund	USD	790,534	0.01
Global Allocation Fund	USD	100,424,858	0.76
Global Dynamic Equity Fund	USD	6,828,032	1.16
Global High Yield Bond Fund [°]	USD	–	0.00
Global Long-Horizon Equity Fund	USD	1	0.00
Next Generation Technology Fund	USD	3,198,820	1.63
Nutrition Fund	USD	736,551	1.37
Sustainable Energy Fund [°]	USD	–	0.00
Systematic Global SmallCap Fund ^{°(1)}	USD	–	0.00
United Kingdom Fund [°]	GBP	–	0.00
US Dollar Bond Fund [°]	USD	–	0.00
US Dollar High Yield Bond Fund [°]	USD	–	0.00
US Dollar Short Duration Bond Fund [°]	USD	–	0.00
World Energy Fund [°]	USD	–	0.00
World Gold Fund	USD	45,756,585	0.86
World Technology Fund	USD	49,449,441	1.90

[°] Fund holds fair valued securities with a market value of zero.

⁽¹⁾ Fund name changed during the period, see Note 1, for further details.

In addition, for Funds invested predominantly in Asian markets, the Funds may adjust the Net Asset Value per share to reflect more accurately the fair value of the Funds' investments at the point of valuation (16:00 CET). This will only take place if the Directors believe that movements in the market price of underlying securities mean that in their opinion, the interests of all shareholders will be met by a fair price valuation. As at 29 February 2020, in accordance with the Prospectus, such adjustments were applied to the Asia Pacific Equity Income Fund, Asian Dragon Fund, Asian Growth Leaders Fund, Asian Multi-Asset Income Fund, China A-Share Fund, China Flexible Equity Fund, China Fund, Japan Flexible Equity Fund, Japan Small & MidCap Opportunities Fund, Pacific Equity Fund and the Systematic China A-Share Opportunities Fund.

3. The Subsidiary

The India Fund invests at least 70 % of its total assets in equity securities of companies domiciled in, or exercising the predominant part of their economic activity in India both directly and through BlackRock India Equities (Mauritius) Limited (the “Subsidiary”), a wholly owned subsidiary of the Company, in accordance with its investment objectives and policies.

All assets and liabilities, income and expenses of the Subsidiary are consolidated in the Statement of Net Assets and Statement of Operations and Changes in Net Assets of the Company. All investments held by the Subsidiary are disclosed in the Portfolio of Investments of the India Fund. The Subsidiary was incorporated on 1 September 2004 under the laws of Mauritius.

Notes to the Financial Statements continued

The Subsidiary invests in securities, the majority of which traded in the Indian market and until 31 March 2017, the Subsidiary obtained benefits under the double taxation treaty between Mauritius and India. The Subsidiary had to meet annually certain tests and conditions, including the establishment of Mauritius tax residence and related requirements.

On 10 May 2016, the Indian Tax Board announced a phased removal of the capital gains tax ("CGT") exemption existing under the India-Mauritius Tax Treaty. The change, effective from 1 April 2017, means that India retains taxation rights on capital gains arising from sales of shares of Indian resident companies acquired by a Mauritian entity on or after 1 April 2017. Shares acquired prior to 1 April 2017 are protected from taxing rights in India. However, the phased approach means that during the transition period from 1 April 2017 to 31 March 2019, the tax rate is limited to 50 % of India's domestic tax rate subject to a limitation of benefits clause. Taxation in India at the full domestic tax rate will apply from financial year 2019-2020 onwards.

Until 31 March 2018, the Subsidiary was exempt from Indian tax on long term capital gains on the sale or transfer of listed equity shares chargeable to Securities Transaction Tax in India. Effective 1 April 2018, the 2018 Indian Finance Bill introduces a 10 % tax on long term capital gains (i.e. holding period of at least 12 months) on the disposition of Indian publicly traded shares and certain other securities after 1 April 2018. Prior to this change, long term capital gains were exempt from Indian tax, provided securities transaction tax (STT) had been paid. For sales of publicly traded shares on or before 31 March 2018, long term capital gains should be exempt from Indian tax. For sales of publicly traded shares from 1 April 2018, long term capital gains should be subject to a 10 % tax. However, where securities were acquired prior to 31 January 2018, the 'cost' of securities in determining the gain will be their fair market value at 31 January 2018.

At 29 February 2020, the Subsidiary had net surplus brought forward tax gains of USD 1.9 million (Long-term) (including the realised and unrealised portion as at 29 February 2020). The net surplus brought forward losses, including realised portion only, at 29 February 2020 was USD 42.7 million (Short-term) and USD 6.3 million (Long-term). At 29 February 2020, the Subsidiary had sufficient brought forward tax losses to cover its realised gains, however there can be no assurance that this will remain the case for future periods. At no point during the period did the realised gains surpass the net surplus losses carried forward, hence a tax liability was not triggered.

Further information on the Subsidiary can be found in the Prospectus and on page 4.

4. Management Company

BlackRock (Luxembourg) S.A. has been appointed by the Company to act as its Management Company. The Management Company, a Luxembourg société anonyme, is authorised as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement, with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus.

BlackRock (Luxembourg) S.A. is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

5. Management Fees

During the period the Company paid management fees to the Management Company, BlackRock (Luxembourg) S.A.

The Company will pay the management fee at an annual rate as shown in Appendix E of the Prospectus. The level of management fee varies from 0.00 % to 1.75 % and will vary according to which Fund and share class the investor buys. These fees accrue daily, are based on the NAV of the relevant Fund (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 18.3 of Appendix B) and are paid monthly. Certain costs and fees are paid out of the management fee, including the fees of the Investment Advisers. There are no management fees charged on Class J and Class X Shares.

To assist in achieving the investment objectives of the Reserve Funds (Euro Reserve Fund and US Dollar Reserve Fund), in certain circumstances, including where market conditions cause decreasing yields on the Fund's underlying investments, the Management Company may determine to waive its right to take the full amount of management fees to which it is entitled on any particular day or days. The Management Company may exercise its discretion to do this without prejudice to its entitlement to take the full amount of the management fee accruing on any future days.

The management fee waiver is disclosed separately from management fees in the Statement of Operations and Changes in Net Assets. During the period the Euro Reserve Fund was subject to a management fee waiver.

During the period, the following Funds were subject to management fee rebates linked to investments into target funds managed by BlackRock:

Dynamic High Income Fund, ESG Multi-Asset Fund, Euro Corporate Bond Fund, Euro Short Duration Bond Fund, Global Allocation Fund, Global Conservative Income Fund, Global Corporate Bond Fund, Global Government Bond Fund, Global High Yield Bond Fund, Global Multi-Asset Income Fund and US Dollar High Yield Bond Fund.

Management fees payable at 29 February 2020 are included in the Statement of Net Assets as other liabilities.

Notes to the Financial Statements continued

6. Distribution Fees

The Company pays annual distribution fees as shown in Appendix E of the Prospectus. The level of distribution fee varies from 0.00% to 1.25%. Class A, D, I, J, S, X and Z Shares do not pay a distribution fee. Class C Shares do not pay a distribution fee for the Euro Reserve Fund and the US Dollar Reserve Fund. These fees accrue daily, are based on the NAV of the relevant Fund (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B) and are paid monthly.

The Company pays distribution fees as detailed in the Statement of Operations and Changes in Net Assets. Distribution fees payable at 29 February 2020 are included in the Statement of Net Assets as other liabilities.

7. Administration Fees

The Company pays an administration fee to the Management Company.

The level of administration fee may vary at the Directors' discretion, as agreed with the Management Company and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Directors and the Management Company that the administration fee currently paid shall not exceed 0.25% per annum. It is accrued daily, based on the NAV of the relevant Share Class (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B) and paid monthly.

The Directors and the Management Company set the level of the administration fee at a rate which aims to ensure that the ongoing charges of each Fund remain competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The ongoing charge is calculated based on the total expenses per share class (excluding bank interest, transaction costs and negative yield expense on financial assets, and including administration fee subsidies) divided by the average net assets of the respective share class, expressed as a percentage.

The ongoing charge of the Asian Multi-Asset Income Fund, Circular Economy Fund, Emerging Europe Fund, Emerging Markets Bond Fund, Emerging Markets Corporate Bond Fund, Emerging Markets Local Currency Bond Fund, ESG Emerging Markets Blended Bond Fund, ESG Emerging Markets Bond Fund, ESG Emerging Markets Corporate Bond Fund, ESG Emerging Markets Local Currency Bond Fund, FinTech Fund, Future Of Transport Fund, Market Navigator Fund, Natural Resources Growth & Income Fund, Next Generation Technology Fund, North American Equity Income Fund, Nutrition Fund, Systematic China A-Share Opportunities Fund and the Systematic Global SmallCap Fund is capped with the delta being offset against administration fees in the Statement of Operations and Changes in Net Assets.

The administration fee is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the Depositary fees, Distribution fees, Securities Lending fees, any fees arising from borrowings (including for the avoidance of doubt any commitment fee that may be due to the lender), any costs relating to European Union ("EU") and non-EU withholding tax reclaims (plus any taxes or interest thereon) and any taxes at an investment or Company level.

The Company pays any professional costs relating to European Union withholding tax reclaims. Any costs relating to withholding tax reclaims will be allocated between the relevant sub-funds on a fair and equitable basis. As the Company has had a good degree of success with its EU withholding tax reclaims (which are paid by the Company) to date, any costs associated with non-EU withholding tax reclaims will no longer be paid out of the administration Fee and will now be paid by the Company and allocated between the relevant sub-funds on a fair and equitable basis.

The administration fee is also used to meet fees paid to Ernst & Young S.A. for audit and services related to investor reporting and other tax compliance matters. Services related to investor reporting provided by Ernst & Young S.A. relate to reporting required for investors resident in particular jurisdictions. There were no other fees paid to Ernst & Young S.A. for services provided to the Company.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Fund's ongoing charges remain competitive. Accordingly the Management Company is entitled to retain any amount of the administration fee paid to it which is in excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any period which exceed the amount of administration fee that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Directors who are not employees of the BlackRock Group in return for their duties performed, received a fee of EUR 55,000 per annum, gross of taxation. The Chairman's fee is EUR 60,000 per annum, gross of taxation. Directors who are employees of the BlackRock Group are not entitled to Directors' fees.

Notes to the Financial Statements continued

Taxation applicable in certain jurisdictions is also charged directly to the Funds (see Note 9).

The administration fees are disclosed in the Statement of Operations and Changes in Net Assets.

Administration fees payable at 29 February 2020 are included in the Statement of Net Assets as other liabilities.

8. Depositary Fees

Throughout the period the Depositary of the Company was the Bank of New York Mellon SA / NV, Luxembourg Branch. The Depositary receives annual fees, based on the value of securities, which accrue daily, plus transaction fees which are further disclosed in the Prospectus. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class. Investments in bonds and developed equity markets will be at the lower end of these ranges, while some investments in emerging or developing markets will be at the upper end. Thus the custody cost to each Fund will depend on its asset allocation at any time.

The depositary fees are charged directly to the Funds. Depositary fees payable at 29 February 2020 are included in the Statement of Net Assets as other liabilities.

9. Tax

Luxembourg

Under present Luxembourg law and practice, the Company is not liable to any Luxembourg income or capital gains tax, nor are dividends paid by the Company subject to any Luxembourg withholding tax. However, the Company is liable to a tax in Luxembourg of 0.05 % per annum or, in the case of the Reserve Funds, Class I, Class J and Class X Shares, 0.01 % per annum of its NAV, payable quarterly on the basis of the value of the net assets of the respective Funds at the end of the relevant calendar quarter. No stamp or other tax is payable in Luxembourg on the issue of Shares. For the period ended 29 February 2020, USD 24,632,333 was charged in relation to Luxembourg tax.

Belgium

The Company is registered with the Belgium Financial Services and Markets Authority in accordance with Article 154 of the Law of 3 August 2012 relating to financial markets. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925 % on the net asset value of units distributed in Belgium via Belgian intermediaries as at 31 December of the previous year. For the period ended 29 February 2020, there was no charge in relation to Belgium tax.

United Kingdom

Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Fund's income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

Withholding tax

Capital gains, dividends and interest received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax in European Union countries. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

10. Investment Advisers

The Management Company, BlackRock (Luxembourg) S.A., has delegated its investment management functions to the investment advisers (each an 'Investment Adviser'): BlackRock Financial Management, Inc. (US) (BFM), BlackRock Investment Management, LLC (US) (BIMLLC), BlackRock Investment Management (UK) Limited (BIMUK) and BlackRock (Singapore) Limited (BSL) as described in the Prospectus.

All Investment Advisers are appointed directly by BlackRock (Luxembourg) S.A.. All Sub-Investment Advisers are appointed by the relevant Investment Adviser. Some of which, as Investment Advisers, have in turn sub-delegated some functions to BlackRock Japan Co. Limited (BLKJap), BlackRock Asset Management North Asia Limited (BAMNA) and BlackRock Investment Management (Australia) Limited (BLKAus).

11. Transactions with Connected Persons

The ultimate holding company of the Management Company, the Principal Distributor, the Investment Advisers and the Sub-Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA. PNC Financial Services Group Inc. is a substantial shareholder in BlackRock, Inc. When arranging transactions in securities for the Company, companies in the PNC Group may have provided securities brokerage, foreign exchange, banking and other services, or may have acted as principal, on their usual terms and may have benefited therefrom. Any such transactions would have been entered into in the ordinary course of business and on normal commercial terms. Commissions have been paid to brokers and agents in accordance with the relevant market practice and the benefit of any bulk or other commission discounts or cash commissions rebates provided by brokers or agents have been passed on to the Company. The services of PNC Group companies could have been used by the Investment Advisers where it was considered appropriate to do so provided that their commissions and other terms of business are generally comparable with those available from unassociated brokers and agents in the markets concerned, and this is consistent with the policy of obtaining best net results. During the period there were no transactions of the Company effected through a broker who is a connected person of the Management Company, the Investment Advisers, Sub-Investment Advisers or the Directors of the Company.

Where Funds invest in the units of other UCITS and/or other Undertakings for Collective Investment ("UCIs") that are managed, directly or by delegation, by the Investment Manager or by any other company with which the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, no subscription or redemption fees may be charged to the Company on its investment in the units of such other UCITS and/or UCIs. The Funds will invest, where possible, in Class X Shares, which are not subject to any management fees.

During the period there have been no transactions which were outside the ordinary course of business or which were not on normal commercial terms entered into between the

Notes to the Financial Statements continued

Company, the Management Company, the Investment Advisers, Sub-Investment Advisers, the Directors of the Company or any entity in which these parties or their connected persons have a material interest.

During the period, Robert Hayes, a Director of the Company, purchased 4,733 shares, with a value of GBP 77,526 in the Global Long-Horizon Equity Fund, D Class distributing (A) UK reporting fund share. No other Director purchased shares in any of the Funds.

The securities lending agent appointed pursuant to the securities lending agreement is BlackRock Advisors (UK) Limited which is a connected party to the Company. BlackRock Advisors (UK) Limited bears all operational costs directly related to securities loan transactions.

The Funds benefit from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc bears the cost of indemnification against borrower default.

BlackRock Investment Management (UK) Limited has appointed BlackRock (Channel Islands) Limited to carry out certain administration services.

Some of the Funds use cross investment techniques, meaning that the Funds invest into other Funds of the umbrella structure.

The combined Statement of Net Assets and the combined Statement of Operations and Changes in Net Assets have not been adjusted to remove the impact of the cross investments.

The following Funds held cross umbrella investments as at 29 February 2020, the market value of which represents 0.08% of the combined net assets.

Fund	Cross Umbrella Investment	Currency	Market Value	% of Net Assets
Asian Multi-Asset Income Fund ⁽¹⁾	BlackRock Global Funds - China Bond Fund	USD	4,329,915	5.31
Asian Multi-Asset Income Fund ⁽¹⁾	BlackRock Global Funds - India Fund	USD	836,916	1.03
Dynamic High Income Fund	BlackRock Global Funds - US Dollar High Yield Bond Fund	USD	7,588,537	0.20
Emerging Markets Bond Fund	BlackRock Global Funds - Emerging Markets Corporate Bond Fund	USD	61,054,500	2.90
Global Multi-Asset Income Fund	BlackRock Global Funds - US Dollar High Yield Bond Fund	USD	36,146,541	0.48

⁽¹⁾ Fund name changed during the period, see Note 1, for further details.

12. Use of Commissions

Where permitted by applicable regulation (excluding, for the avoidance of doubt, any sub-funds which are in scope for MiFID II), certain BlackRock Group companies acting as

investment adviser to the sub-funds may accept commissions generated when trading equities with certain brokers in certain jurisdictions. Commissions may be reallocated to purchase eligible research services. Such arrangements may benefit one sub-fund over another because research can be used for a broader range of clients than just those whose trading funded it. BlackRock Group has a Use of Commissions Policy designed to ensure only eligible services are purchased and excess commissions are reallocated to an eligible service provider where appropriate.

13. Financial Derivative Instruments

The Funds may buy and sell financial derivative instruments which is further described in the Prospectus. Please refer to the Fund's Portfolio of Investments for financial derivative investments held as at 29 February 2020.

Underlying exposure, as disclosed in Appendix III, has been calculated according to the guidelines issued by ESMA and represents the market value of an equivalent position in the assets underlying each financial instrument.

14. Securities Pledged or Given in Guarantee and Received in Guarantee

Securities which are pledged as collateral or given in guarantee by the Funds are disclosed in the Portfolio of Investments of the Funds. As at 29 February 2020 the value of these securities, evidenced by a "†" in the Portfolio of Investments of the Fund, amounts to USD 239,865,032.

For the Systematic Global Equity High Income Fund, the collateral on written call options is pledged under a tri-party agreement between BlackRock Investment Management (UK) Limited, Merrill Lynch International and Bank of New York Mellon (International) Limited. As at 29 February 2020 the value of the collateral, evidenced by a "Λ" in the Portfolio of Investments of the Fund, amounts to USD 1,865,705.

Securities which have been received in guarantee by the Funds are detailed in the table below. As at 29 February 2020 the value of these securities amounts to USD 11,435,299.

15. Cash Collateral

The Funds trade derivatives with a range of counterparties. The counterparties to the derivatives are shown in the Portfolio of Investments. The derivatives are traded with the following counterparties: ANZ, Bank of America, Barclays, BNP Paribas, BNY Mellon, Citibank, Citigroup, Commonwealth Bank of Australia, Credit Suisse, Deutsche Bank, Goldman Sachs, HSBC Bank Plc, JP Morgan, Merrill Lynch, Morgan Stanley, Nomura, RBS Plc, Royal Bank of Canada, Societe Generale, Standard Chartered Bank, State Street, Toronto Dominion, UBS and Westpac. Collateral/Margin is paid or received on swap contracts, CFDs, futures contracts, options written (put and call), options purchased (put and call) and swaptions to cover any exposure by the counterparty to the Company or by the Company to the counterparty. "Due from brokers" consists of cash collateral paid to the Portfolio's clearing brokers and various counterparties. "Due to brokers" consists of cash collateral received from the Portfolio's clearing brokers and various counterparties. Futures Contracts Cash forms part of Cash at Bank in the Statement of Net Assets.

The table below provides the cash collateral balances due from/ (due to) the brokers in relation to the CFDs, swap contracts and OTC Options as at 29 February 2020. Futures Contracts Cash balances relate to cash held at brokers and are in part used to satisfy margin requirements as at 29 February 2020.

16. Dividends

The Directors' current policy in relation to the payment of dividends depends on the Share Class. For Non-Distributing Share Classes the current policy is to retain and reinvest all net income. In this regard the income is retained in the NAV and reflected in the NAV per share of the relevant Class. For the Distributing Share Classes, the policy is to distribute substantially all the investment income (where available) for the period after deduction of expenses for Share Classes which distribute net or all of the investment income for the period and potentially a portion of capital before deduction of expenses for Share Classes which distribute gross. Please refer to the "Calculation of Dividends" section in the Prospectus for further information regarding the distribution policies for each Distributing Share Class. The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Certain Funds and/or certain Share Classes (e.g. Distributing (S) Shares, Distributing (R) Shares and Distributing (Y) Shares) may make distributions from capital as well as from income and net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital

gains or net unrealised capital gains, or, in the case of Funds which distribute income gross of expenses, dividends may include initially subscribed capital. In the event dividend income is paid from the capital of the Fund, it will result in capital erosion and may constrain further capital growth.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

For those Funds which offer distributing shares, the frequency at which the dividend payment is made is determined by the Fund type. Further information on the payment of dividends is set out in the Prospectus.

The declaration and payment of dividends and the reinvestment options available to shareholders are set out in the Prospectus.

17. Credit Facility

In April 2016 (and subsequently amended on 1 April 2017, 1 April 2018 and 1 April 2019), BGF entered into a credit facility with JPMorgan Chase Bank, N.A. ("JPMorgan") whereby JPMorgan, together with other syndicated lenders, made a credit facility available to the Funds, which currently stands at USD 1,262.5 million for Luxembourg funds. This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are borne out of the net assets of the Company. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this period, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same. As at 29 February 2020 the Funds did not have any outstanding amounts from such credit facility. The credit facility was not used during the period from 1 September 2019 to 29 February 2020.

18. Sub-Underwriting Income

The Company may, with the consent of the Depositary, enter into sub-underwriting agreements. Sub-underwriting agreements allow the Company to support a rights issue, prior to investment by other subscribers, in return for a fee. During the period no Fund received income under sub-underwriting agreements.

19. Valuation Date

The financial statements have been prepared on the last NAV valuation date of the financial period which has been calculated on 28 February 2020, with a price of that date.

Notes to the Financial Statements continued

20. Subsequent Events

Effective 24 April 2020, the ESG Fixed Income Global Opportunities Fund, denominated in EUR was launched.

The Directors have assessed the impact of market conditions arising from the COVID-19 outbreak on the Funds' ability to meet their investment objectives. Based on the latest available information, the Funds continue to be managed in line with their investment objectives, with no disruption to the operations of the Funds and the publication of net asset values. No investment objectives are expected to be altered and the Directors will continue to monitor the performance of the Funds on an ongoing basis.

Appendix II – Eligibility for French “Plan d’Epargne en Actions” (“PEA”)

A PEA is a French equity savings plan intended to encourage French tax resident individuals to invest in European equities. PEA eligible funds must invest on a permanent basis at least 75 % of their assets in PEA eligible securities issued by companies (i) established in a Member State of the European Union or in Iceland, Liechtenstein or Norway and (ii) subject to corporate income tax, or an equivalent tax.

Throughout the period ended 29 February 2020, the Funds listed below invested more than 75 % of their total net assets in PEA eligible securities.

As at 29 February 2020, the below Funds had the following percentage of their total net assets invested in eligible PEA securities:

Fund	% Invested in PEA eligible securities
Euro-Markets Fund	95.41
European Focus Fund	78.65
European Fund	78.16
European Special Situations Fund	85.80
European Value Fund	86.08

The PEA eligibility of these Funds results from, to the best knowledge of the Company, tax law and practices in force in France as at 29 February 2020. Such tax law and practices may change from time to time and, therefore, the Funds which may currently be held within the framework of a PEA could lose their PEA eligibility. Further the Funds could lose their PEA eligibility due to changes impacting their investment universe or benchmark index. In such circumstances, investors will be informed by the publication of a notice on the website of the Company. In such a case, the investors should seek professional tax and financial advice.

Appendix III – Supplementary Information

Efficient Portfolio Management Techniques

The Company may, on behalf of certain Funds and subject to the conditions and within the limits laid down by the CSSF and the Prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC Financial Derivative Instruments (“FDIs”) provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or investment purposes, where applicable.

In addition to the investments in FDIs, the Company may employ other techniques and instruments relating to transferable securities and money market instruments, subject to the conditions set out in the relevant CSSF Circular, as amended from time to time, and the relevant ESMA Guidelines, such as repurchase / reverse repurchase transactions, (“repo transactions”) and securities lending.

Securities Lending and Total Return Swaps (“TRS”) (including CFDs)

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary, The Bank of New York Mellon SA / NV, Luxembourg Branch, on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds’ Depositary or the Lending Agent.

All TRS (including CFDs) are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Master Agreement (“ISDA Master Agreement”) or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC FDIs (including TRS and CFDs) entered into by the parties. The parties’ exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by the Funds under the ISDA Master Agreement, not just TRS and CFDs. All collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The following table details the value of securities on loan as a proportion of the Funds’ total lendable assets and NAV and the value of TRS (including CFDs) as a proportion of the Funds’ NAV as at 29 February 2020 and the income/returns earned for the period ended 29 February 2020.

Total lendable assets represents the aggregate value of assets forming part of the Funds’ securities lending programme. This excludes any assets held by the Funds that are not considered lendable due to any market, regulatory, investment or other restriction. The value of TRS (including CFDs) is based on the underlying exposure value on a gross absolute basis.

⁽³⁾ Fund closed to subscriptions, see Note 1, for further details.

Appendix III – Supplementary Information continued

Income earned during the period, by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets.

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds receive at least 62.5 % while Securities Lending Agent receives up to 37.5 % of such income with all operational costs borne out of the Securities Lending Agent's share. All returns and costs from TRS (including CFDs) will accrue to the Funds and are not subject to any returns or costs sharing arrangements with the Fund's Management Company or any other third parties.

The following table details the value of securities on loan (individually identified in the relevant Funds' Portfolio of Investments) and associated collateral received and the underlying exposure value on a gross absolute basis for TRS (including CFDs), analysed by counterparty as at 29 February 2020.

As at 29 February 2020, all cash collateral received by the Funds was re-invested in money market funds managed by the Management Company or its affiliates, as disclosed in the Fund's Portfolio of Investments. The Funds are the legal owner of inbound collateral and can sell the assets and withhold

the cash in the case of default. All cash received or posted as collateral has an open maturity tenor as it is not subject to a contractual maturity date.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC FDIs, cannot be sold, re-invested or pledged.

The returns earned by the Funds from the reinvestment of cash collateral in money market funds during the period ended 29 February 2020 are summarised below. These returns represent the accumulative total return of the representative money market fund for the period ended 29 February 2020. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

Money Market Fund	Total Return %
Institutional Cash Series plc	
- BlackRock ICS US Dollar Liquidity Fund	2.04%
- BlackRock ICS US Dollar Liquid Environmentally Aware Fund	2.00%
- BlackRock ICS Euro Liquid Environmentally Aware Fund	(0.46)%

The following table provides an analysis of the type, quality and maturity tenor of non-cash collateral received and posted by the Funds by way of title transfer collateral arrangement in respect of securities lending transactions and OTC FDIs (including TRS and CFDs), as at 29 February 2020.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20 % of the total index and no five equities combined represent more than 60 % of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities and ETFs received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

As at 29 February 2020, all non-cash collateral received by the Funds in respect of securities lending transactions and OTC FDIs (including TRS and CFDs) is held by the Fund's Depositary (or through its delegates), with the exception of the amounts disclosed in the following table which are held through a securities settlement system.

Depositary	Non-cash collateral received

Appendix IV – Total Expense Ratio

Total Expense Ratio (“TER”) is calculated as the total of all expenses (excluding bank interest, negative yield expense on financial assets, depositary transaction fees and expense reimbursements), divided by the average net assets of the Company, expressed as a percentage. All data is annualised.

The Management Fee may be used in part to pay remuneration for distribution activities concerning the Company. Reimbursement may be made to institutional investors which from a commercial perspective hold shares of the Company for third parties.

The TERs for the period from 1 September 2019 to 29 February 2020 are as follows:

Fund Name	Share Class	TER	Fund Name	Share Class	TER
ASEAN Leaders Fund	A Class non-distributing share	1.852%	Asian High Yield Bond Fund	A Class distributing (R) (M) (G) UK reporting fund share CNH hedged	1.254%
	D Class non-distributing share	1.100%		A Class distributing (S) (M) (G) share	1.251%
	I Class non-distributing share	0.841%		A Class non-distributing share	1.253%
	X Class non-distributing UK reporting fund share	0.090%		D Class non-distributing share	0.756%
Asia Pacific Equity Income Fund	A Class distributing (A) (G) share EUR hedged	1.850%		E Class distributing (Q) share EUR hedged	1.751%
	A Class distributing (Q) (G) share	1.850%		E Class non-distributing share	1.751%
	A Class distributing (Q) (G) share SGD hedged	1.850%		E Class non-distributing share EUR hedged	1.752%
	A Class distributing (R) (M) (G) share AUD hedged	1.850%		X Class non-distributing share	0.095%
	A Class distributing (R) (M) (G) share ZAR hedged	1.850%	Asian Growth Leaders Fund	A Class distributing (S) (M) (G) share	1.700%
